

ALIYU AHMAD

Senior Frontend Engineer | React Native · React · [Next.js](#) · Vuejs · Angular · TypeScript · JavaScript

Abuja, Nigeria | +234 813 294 3547 | aliyuahmad1996@gmail.com

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 8 years of experience building scalable mobile and web applications using React Native, React, Next.js, TypeScript, and JavaScript. Experienced delivering high-performance products across fintech, agritech, food delivery, logistics, cryptocurrency, security, and education industries, with a strong focus on performance optimization, reusable architecture, state management, and exceptional user experience. Active open-source contributor to React Native core, with a strong track record of mentoring developers, teaching live coding classes, and driving frontend best practices throughout the software development lifecycle.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React, React Native, Next.js, Expo, Redux Toolkit, RTK Query, Context API, React Hooks, NGrx, Tailwind CSS, NativeWind

Mobile: React Native, Expo, SQLite, Deep Linking, Push Notifications, Offline-first Applications

API Integration: REST APIs, Firebase, WebSockets, GraphQL

UI/UX: Figma, Component Libraries, Design Systems, Responsive Design

Performance: Lazy Loading, Code Splitting, Memoization, Image Optimization, Bundle Optimization

Testing: Jest, React Testing Library, Cypress, Detox

Cloud & DevOps: AWS (S3, EC2, CloudFront), Docker, GitHub Actions, CI/CD

Tools: Git, GitHub, Bitbucket, Vite, Webpack, NPM, Yarn, Postman, SwaggerUI, VS Code, Android Studio, Xcode

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer (React Native) | Kredibank *Nov 2024 – Present*

- Lead development of React Native features for a digital financial platform.
- Build scalable, reusable components using React Native, TypeScript, and Redux Toolkit.
- Optimize performance and integrate secure REST APIs.
- Collaborate with cross-functional teams and mentor developers.

Senior Frontend Engineer (React | React Native) | Loopscribe *Jun 2023 – Mar 2025*

Remote

- Developed product features for a collaborative note-taking platform.
- Improved startup time and rendering performance.
- Built reusable UI components and offline functionality.

Frontend & Mobile Engineer (Contract) | WhiteAxis *2023 – 2024*

Side contract, concurrent with Loopscribe

- Managed and maintained both the Partner App and Client App (React Native), keeping feature parity and a consistent user experience across both.
- Built and maintained the company website using React/Next.js, improving load times and responsiveness.
- Worked directly with stakeholders to scope, ship, and iterate on features independently.

Frontend Developer | Nippyeats *2022 – 2023*

Food delivery company, Abuja

- Built and maintained customer-facing ordering features for a food delivery platform.
- Integrated real-time order tracking, payments, and push notifications.
- Collaborated with the backend team to optimize API integration and app performance.

React Native Developer | Jampay *Nov 2022 – May 2023*

- Developed cross-platform features with React Native and TypeScript.
- Integrated payment APIs and improved application performance.

Frontend Engineer | EveryFarmer *2018 – Dec 2021*

- Built responsive web and mobile applications using React and React Native.
- Integrated mapping services, payment systems, and third-party APIs.

OPEN SOURCE & COMMUNITY

- Contributor, React Native core — contribute fixes and improvements to the open-source React Native framework.
- Mentor — teach programming to aspiring developers through live coding classes and recorded video sessions for a developer community.

SELECTED PROJECTS

- Dan Modi Student Care Platform — Next.js, TypeScript, Firebase.
- Logistics Quote Management Platform — Next.js, Redux Toolkit.
- Firebase Content Management System — Next.js, Firebase.
- JAMB CBT Examination Application — React Native.

EDUCATION

Bachelor of Engineering (Computer Engineering)

Ahmadu Bello University, Zaria
